SAN JOSE, Calif. --(BUSINESS WIRE)--Apple® today previewed macOS® Mojave, the latest version of the world's most advanced desktop operating system, with new features inspired by pros but designed for everyone.. In macOS Mojave, a new Dark Mode transforms the desktop with a dramatic new look that puts the focus on user content.

The new Stacks feature organizes messy desktops by automatically stacking files into neat groups.. FaceTime® now adds support for group calling, and the Mac App Store® gets a full redesign featuring rich editorial content and the addition of apps from top developers, including Microsoft, Adobe and others.

Familiar iOS apps, including News, Stocks, Voice Memos and Home, are now available on the Mac® for the first time.
